- \* A well organized hierarchy system based on Afikan King/Queenship
- \* Provides excellent wholistic information on matters of spiritual development that can be applied to ones life and the results can be experienced directly. They do this better than any other org i've seen.
- \* Emphasizes that each individual is Ausar("god"), and that all of the deities are just personifications of specific energies that exist within.
- \* Emphasizes that each persons growth is determined by how dedicated they are to their own spiritual cultivation. (Preisthood Initiation is the real deal)
- \* Utilizes the oracle system (Metu Neter/I Ching/etc.) and astrology systems.
- \* Understands various spiritual energy principles.
- \* Priesthood is very good and giving counsel in various areas of life.
- \* Provides a great sense of community.
- 
- \* Ra Un Nefer is the King and his ideas, many which are business related, take precedence over your individual goals. "Support your king". (I'm an artist. These cats seriously was tryna get me to be a damn nutritional supplement salesman. Telling me to energize my Sebek....Ha!)
- \* The constant fees: Books, Cds, Classes, Counsel, Nile Valley Products, Community dues, projects, retreat, etc.(I literally had my bank account dwindle to zero with these cats)
- \* Poor people can't afford to be apart of it....see above
- \* If you aren't breakin' off some money, you may not be treated as a member of the community....just a vistor.

He has formal training in music and mathematics,  
a vegan, and strong "humanist" attitude to things  
although it's draped up into his schizophrenic  
"I/We are God (Nk Wsr) but we are not 'The God'" stylo he be on.  
Through the books Mdw Ntr vol 1. and 2. I was able to  
personally make the step to give up consumption of meat.  
The way he described how people had to prepare meat  
to taste like and had a texture of a vegetable, and also  
do herbivores that we eat, do they eat me? also if  
we are real meat eaters why don't we have longer canines  
and why do we have to tenderize and cook meat to consume it.

I have been to a coupla few of his lectures. I always supported  
Itongo Food Co-op in Chicago (closed now) when I would be  
through there, intermittently, while I was at Purdue.  
They were using the Co-op as a Het Neter in the backroom meeting  
place. Always had great discussions with peoples up there.  
Also the times I could make it to Atlanta, networking with peeps  
at Senbeb co-op and so forth.

They have a co-op down in Charlotte, NC I hit up every once and a  
while, and I have been to their series of Qi Gong classes  
they had at John C Smith university in Charlotte. Some sharp  
people, besides the whole God schizophrenia thing. Did  
some actuary/math consulting for one of the brothers who was trying  
to draw up the pattern in the book called Cycles by Dewey, to  
do some financial forecasts (he's a financial planner banker).  
You know they even let me lead one of their Qi Gong classes once,  
but I understood it was a "recruitment" tactic to try to  
get me to join the Society and go into the priesthood, which I  
wont do because I am already dedicated to Allah's Nation and  
don't believe in a mystery God nor do I advocated "I am God  
but I am not The God" schizophrenia. At least they pointing  
people in a better direction than "you ain't even God you  
are just worthless" direction that most religious groups  
be on. And what I look like  
bowing to PEOPLE and stuff?! I'll shake your hand and that's  
about it, or if we are doing martial arts and we are BOTH  
bowing to each other as a salute, but otherwise, hegs naw!  
I understand why they  
do that because they are trying to teach humility, but they  
are diluting the reality a little bit in the process.  
They was going to have classes later on what they call "Cosmologics"  
i.e. ASTROLOGY and I was like "ehhhhhhhhh I will pass on that"  
I don't be advocating astrology, it's a form of unfounded  
classism to me. Yeah and I know not to get on that  
whole "paper trail" with them, I rather be treated just as

an observer visitor, than to get into the whole givin' up the loot thing on the level the members are on. I will say I never felt jipped when I spent money with these people on food, oils, toiletries, books, health evaluations (that electric meridian machine consultation) and music. I can't say that about alot of other black people or organizations I have done business with. One of their Shkhm (Shekhem or King Priest) their even broke down to me the history between them and Smaj Tawi (Semahj, Afua and them) as far as the so called "competition" from the 70's.

It was really something for me to see Hmn draw up the Ntrw in Mdw Ntr to a system of Kabbalah/Tree Of Life/SUPREME MATHEMATICS in some form, I thought that was cool, although to me some of the Ntrw he matched up to Mathematics are out of order a little bit.

I ask Hmn one time about this so called Rosicrucian affiliation he had in the past, that is listed for his Society in some religious/philosophical reference books. He told me "naw I was never IN the Rosicrucian Society, but I did rent their space to have lectures there about the Kabbalah and African/Black Philosophy, and then those people in that organization started to invite me to do guest lectures for their group also".

He said he really started organizing in 1970 and it eventually transformed in to Ausar Auset Society International from that point. He said "I wanted to get our people to stop eating fried chicken!!!!" muha, MUHA, MUHAHAHAHAHA!

Yeah I have most of his books (about 6 or 7 or so) and books from some of his peeps like Enkamt who wrote "African Names", and I bought one of those video tapes about Woman's Healing Dance from ONE OF HIS WIVES! (one of! props! :-P) for a friend of mine at Purdue who was a choreographer in West African dance at Purdue.

I have also been to their Het Neter in Medina (Brooklyn) when it was on Atlantic Avenue, they have like sort of a "mall" inside, with a health food co-op, a clothing store, a book store, a restaurant, a day care and grammar school, as well as their temple space and oracle offices and stuff. The food was SLAMMIN! (Gluten patties and rice with brocolli = MMMMM MMMMMMM!!) They don't have that space anymore, but they have a new but smaller space further up Flatbush ave now, went thru there one day this summer and Hmn was giving free classes on Mdw Ntr.

I have alot of old and current friends in their Society and they have all been good peeps. They don't come off as holier than though people, and they are actually not afraid to ask for help from outside people and organizations/society.

Peace.

That's hella funny....

...but Allah, you don't see how the deities are just personifications of the different energy expressions that exist within oneself and in the world? It gives focus, instead of some broad, yet narrow definition. Ausar is the unity of all of the deities expressing in their highest qualities.

This is true and was ultimately the final thing led to my departure after 2 years of study with them, including 7 months of priesthood initiation. One of the elders said to me after a ritual, where some things were said that i found to be suspect, "You don't challenge the deity.".....I was thinkin' to myself, 'wait, I 'm the deity'. Then everyone in the group proceeded to make comments on some ole Ra Un Nefer worship type shit. I was, 'fuck that' and i never returned after that.

Amen is representative of the total peace state(hetep), A state of no movement. Within man, this is the state where one isn't moved by anything. From this position, Amen manifests the first thought that one can be anywhere, anytime, being what one chooses. This is the manifestation of Ausar.

Reaching Amen is the the goal, for Amen is 'mindstate' one is operating from, yet Ausar is who one is, thru the proper utilization of the unification of the deities on the 'Tree of Life'.

Peace

especially if you need a framework for some personal/self-help work.

i recommend it often to ppl who are just getting interested in a holistic lifestyle. i think it's more accessible than a lot of the resources out there.

you can pick it up no matter where you are and get something out of it, imo.

I was at their building for an event they had one night and i was kickin' with my homie, who does production for Queen Afua's son. So, at the end of the night, my friend disappeared into the studio, which was downstairs, with dude and had been in there for a long time. I was ready to go back to my room and I was flying out of NY the next day and wanted to say "Peace" to my homie, so I go downstairs to the studio. I hear the cat recording vocals and wait til there's a break, then i knock on the door...nobody opens. He raps again and on the next break i knock again....nobody opens. I know how rappin' mu'fuckaz be when they in the booth so i wait another 5 minutes then knock again....This nigga opens the door all fast screamin', "What!? I'm doin' my shit!!!" I said, "Nigga you ain't learned what 'Hetep' is about yet, cuz i need to say it to my brotha before i depart..."

As for Queen Afua, I came to her shop, alone maybe 4 times in like 6 days and she never anything to me other than "How are you doing?" and "Can i help you?....You shouldn't be over here" She was NOT very open to me. Her husband was cool though. I kicked it with him for a good minute.

Though Queen Afua's books read pretty nice, they whole thing seemed like some shit people who left Ausar Auset on some emotional, "fuck Ra Un Nefer", type shit would turn to.

peace & blessings...

for SOME reason, for the first time in years, i came on here and saw this post anchored. wow.

anyhoo, i am newly initiated through Akeru NuAfrakan Ministries/Shrine of Akeru (<http://akeruministries.com>). my godmother's spiritual elders (Shrine of Khpra) are related to the Shrine of Ptah.

i think it's important to have this kind of info because many seeking the Kemetic path find either euro-based orgs or Asar Auset Society, but there are alternatives.

I don't know if that is necessarily positive. There is ALOT of overlap between the books too. He has some great books on diet, parallels of Nile Valley meditation to Indian meditation, comparative world philosophy to Nile Valley philosophy, etc., but the more books he puts out, the more I get the "yorkism publishing methods" sensation from this guy. I haven't checked out any of his videos yet. Peace.

Message In response to [Reply # 3](#)

Sebai Maa may not have the Akan type networking and municipality placement going for him, but after further review of some of his scholarly research, in particular, his book "Egypt and India, the Origin of Hinduism, Yoga, Buddhism and Dharma" I can definitely say that Sebai Maa / Dr. Muata Ashby is NO SLOUCH and is very competent and maybe even more so than Ra Un Nefer Amen on the historicity tip.

May depart of ways so to speak, when it concerns Amen or Maa, is there insistence to use Religion, dejection of the Super Ego by advocating a Mystery God even in the midst of Heroistic / Heru-istic psychiatry, and dependence on such fallacious concepts such as "reincarnation" and "astro logic / astrology" (Maa and astrology, no so much). I had a chance to do the knowledge to a religious function performed by the Shetuat Neter temple, and the convener was thorough in terms of using ALL MDW NTR speech and writing during the whole observance. They even did a brief kundalini exercise before the service.

Amen happened to have given a a few days before covering the topic of venerating the ancestors, and showing and proving that it was a strict and thorough process, and not just any tom dick jane or sally was venerated, unless it had been recorded and shown by witnesses that they upheld a high moral and life science character. The only argument I couldn't get with was his supposition of the Mystery Spook God, by advocating that "innocent children" who get killed by plague, malady, war or disease, just basically get to "reincarnate" and otherwise what's the point of them dying if they don't get "another chance" THEREFORE my Mystery God concept exists (smh). To me that's a cop out and in a way devaluates the actual VALUE of human life as well as the life of Man, by advocating this second multiple chance reincarnation philosophy.

I also did some discussions between the two groups in terms of their perspectives of the PSDJT NTRW or the "Ennead" "Great 9/10/11" "Tree of Life" schematics for the arrangement and usage of NTRW in each respective system. I have not come across in any of the traditional literature from the HPY river valley the arrangement that Amen devised in 1973 in terms of Amen, Ausar, Tehuti, Seker-t, Ma'at Heru Khuti, Heru, Het Heru, Sobek, Auset, and Geb. I have come across the particular list of monarchs in the Old Kingdom that came in the name of Shekem, which is the title Amen and some of his supplemental auxiliary kings use. I suppose I will have to check some of these Old Kingdom records of those particular Shekem monarchs to see if they ever used this arrangement for their solar barque or "tree of life". Amen says he didn't just derive it from one of his ancestral meditations (which to me means, he is saying he didn't just "make it up"). He says check the Pyramid Texts, PRT M HRW, The Book of Gates, and the Book of the Am-Duat for references to "HIS" version of the Tree of Life. I do see that Maa's version is straight out of Anunian/Heliopolis Theology in terms of Ra, Shu, Tefnut, Geb, Nut, Ausar, Auset, Set, Neb Het. Bro. Amen says that the Anu Tree is only reserved for "Nebercher" The Supreme Being "Mystery God" that he and Maa and other Nile Valley proponents advocate as the supreme "trancendental" Mystery God. To Bro. Amen, this means that the Anu Tree is not applicable to "people". I disagree, since to me, People are the Supreme Being, and all those elements in the Anu Tree (NOT NO DAMN SUMERIAN ANNUNAKI EITHER) are just fundamental Physical and Life Elements, Light/Fire/Plasma, Gas, Liquid, Solid, Vacuum, Man, Woman, Fauna, Flora. Anyway, if anybody has seen the group of NTR / Neter that Ra Un Nefer Amen uses in any of the classical literature in one grouping, please let me know what book or passage it was in.

The other thing that kinda made me frown was the Shetuat Neter religious ritual with the alter and a canvas of Ra and Ma'at with the Cipher/Circle Dot in the middle to also represent Ra, and the people was prostrating and bowing to it 😞 Then the dude gave the lecture about how Ra and Heru is "you" and that they are bowing to themselves. That kind of thinking always urked me. Why in the hell is you making excuses for subservient behavior by claiming that the objects you prostrating to are "your self", or that you are "worshiping yourself". That's the dumbest ass concept I ever heard of, but oh well, it was a religious activity, so you got to acknowledge for what it is, religion 😞

Otherwise, these two groups are doing some fairly serious work and preserving HPY (Nile) valley culture in the black community, and incorporating holistic practices associated with it, as well as supplementary holistic practices from related sources and ways of life.

Peace. This next expose is on

Fahamme Temple (founded 1919)

<http://www.fahamme-isiselamun.com>

<http://groups.yahoo.com/group/fahamme>

Sooooo I was finally able to obtain this groups primary literature outside of their catechism, which is called the Fahamme Gospel. The group was founded in 1919 by "The Culture Prophet, The Prophet of Amun-Ra, The Honorable Paul Nathaniel Johnson, Rasool Fahame" as the "Fahamme American-Ethiopian Temples of Science and Culture" and later called the "Fahamme Temple of Civil and Divine Understanding" and now called the "Fahamme Temple of Isis El Amun". Fahamme is their spelling for the modern arabic word "Understanding" or "Wisdom" which is Fahom or Fahum. This brother basically came straight ouf of the Moorish National and Divine Movement / Moorish Science Temple of America founded in 1913, so when you see some of their old school pictures, they are wearing Fezes and Hijabs and so forth and so on.

Let me give y'all some excerpts of this "The Holy Fahamme Gospel" copyright 1943 (Chapters 1-9 was formally written on or before 1943, chapters 10-32 were written 1968 after Johnson expired in 1944, by a reclamation of notes of Johnson by his students). As a side note, if you

want to purchase a copy yourself, consult the first link above, but SEND AN EMAIL OR CALL THE BROTHER FIRST, to make sure you get a response, because they be slow in responding to email in paypal. I had the hunt the dude's number down from his dog business at <http://www.oklahomabigbluepits.com/oklahomabigbluepits.htm>. Although the Fahamme Temple primarily started in St. Louis, they also have a temple in Oklahoma and Houston TX, with the books being sold out of Oklahoma. He basically starts dropping it the first few verses of the first chapter (I put single quotes around what I consider 'controversial' material:

"Chapter One  
The Son of Man

1. Know ye that the Sun himself was in Ancient Days called a man, ' the man above', The Son of Man or Sun Man, and the name Man was many times used for God.
2. Toom, Tum, Atum and 'Adam' are all one in the same thing. In the Ancient Days of Christ or Chrim or Anointed was Ra, or Raha, and does not nor did not remotely refer to the blessed Prophet Jesus (Peace Be Upon Him) for he had not been born.

.....  
(PAY ATTENTION GODS)

4. When one becomes conscious that he or she is a Son of Man OR THE SUN, , or the Daughter of the Sun OR THE MOON, then they know they are gods and 'goddesses' in the earth, 'regardless of race, creed, color, or place of birth'.

(PAY ATTENTION EARTHS)

9. Bar Enos and Bar Atum - Son of Man and Son of God, I have said ye are gods, and Sons of the 'Most High'. This familiar picture seen in almanacs is a picture of the IDEA of Sun being God 'The Great Man above'. Virgo the virgin is the woman from his rib or belly. A symbol of the Moon personified. They begets children (vegetation) 'without the agency of sex'. Sun is the father of women as well as men. The Earth is also a "virgin "

woooooooow

Anyway, this is the group where all the Israel = Isis Ra El and Islam = Isis El Amon stuff comes from (in case any of you picked up them Prince A Cuba books and stuff). For example

"Chapter Two  
The Saviour of the World

- .....  
5. Muhammad choose Islam (Isis-El-Amon)....."

"Chapter Three  
Jeeze - Sons and Daughters of God

- ....  
4. Rah-Man is Amun-Ra, Rah-heem is Ra-Kem, or Ham. Ham is written Kom. Your Divine Ancestor's Names, Isis, El, Amon, equals Islam. Isis, Ra, El equals Israel.  
....."

"Chapter Nine  
Culture

- ....  
10. The cults of Isis, Ra and El combined is Israel; and Isis, El and Amun is Islam, and the cults of Ka, Ra and Isis is the Christ.  
.....  
"

Finally, let me quote this one where Bro. Johnson establishes his Prophethood of Ra

"Chapter Three  
Jeeze - Sons and Daughters of God

- ....  
I am the Vicar of Ra  
19. I, Paul Nanthaniel Johnson, claim to be Successor and Vice-regent of the entire Hamite Pantheon. Divine Successor of the original Three, Seven, Eight, and Twelve Gods (Saints) of Ham. Ham the father of Cush, and Mizram, and Phuta, and Canaan. All of which are now combined into One Name Fahame. Hame is the the father of these. Their holiness, power, and strength remain, and I have cleared them of false charges. Many willsay: This is not Islam nor is it Christianity, maybe not. But is FAHAME of Isis, El, and Amun, and who is able to dispute that?  
20. Fahame is the holy spirit of Ra the Glorified again manifest in the image of man; as it was in times past manifest in many a Holy Negus.  
"

Very interesting writing from back in the days there. The group in the writings advocates "racial equality" and "equal access" to "god" and "goddess" status in the movement among "blacks/negroes" and whites, but also advocates that group is the heritage of black "Ethiopians" of the "Nile Valley". The guy claimed to talk to the "spirits" of Buddha as well as "Theodore Roosevelt" (WT FOG???). But anyway, he had some interesting synthesis of Nile Valley Culture with Black Millenarianism of the early 20th century. Also the Moorish Science Temple of America, the Muslims of the Nation of Islam, and other Black Freemasonic groups influenced by Egypt Memphis-Mizriam Rite 96 degree freemasonry of the "egyptian/sufi/moorish" European French/Spanish Enlightenment, associated with Nile Valley Culture "indirectly", The Fahamme Temple formally embraced it as the "progenitor" of black culture and culture in general.

Peace.

that these modern in itiation rites are authentic transmissions of nile valley culture and religions?

In metu neter he says that ifa system is similar to the egyptian one... etc yoruba gods aree looked at in similar ways to egyptian ones.

Did he use the yoruba models to kind of extrapolate backwards to see what kemet initiation systems may have been like?

he is going of the basis of a PRE dynastic pastoral system of government and psychology via communalism

so he claims. That is why their Pwht Ntr list is a little different than the standard list given in the Pyramid Texts or the Book of Coming forth by day Prt M Hrw.

He did say he derived it by "intuition" so I'm not buying that either, but it seems like a cohesive attempt to integrate the pre-dynastic psychology with other pyschological and philosophical practices in the eastern ad western hemisphere.

Smaa Tawi with Semahj and Afua and them, which came out "before" Ausar Auset society, they strive for a more Memphite "theology" background based on stone building, metal work, and mastery of the Mdw Ntr language. So they are going for the Dynastic stuff. Muata Ashby and them, and my understanding is that he was with Ausar Auset at one time, wanted to expand beyond just the Ausar centric stuff and investigate all the different so called theologies including Memphite, Heliopolitan, Hermopoliton, Atenism, and other popular state philosophies and integrate them with "yoga".

The Earth Center Odwifaro people are the ones in Chicago that are trying to redevelop the Hpy (Nile) valley method of society via the modern West "African" societies via the Akan, Ifa, and so forth. They feel like the other groups make too many compromises to appease Judaism and/or Orientalism.

Out of all of them Amen is the only one that has been formally enstooled as a Priest King via the Akan. Master Naba of the Earth Center, he has gone through the Dogon rites of passage, which I don't think the Akan/Ifa and the Dogon cross recognize each other like that. Peace.

Mikyia wo (Greetings),

Meda ase (thank you) for adding our site to your list. For clarification purposes, we are in no way shape or form associated with the "earth center" nor it's "philosophy". There is some confusion because of an article of ours that they have refused to remove from their website.

Also, we are an Akan organization, Aakhuamu (Akwamu) in particular.

Naturally, as an important component part of our culture we do honor all of our direct Nananom Nsamanfo (Spiritually Cultivated Ancestresses and Ancestors). These are only Afurakani/Afuraitkaitnit (African~Black) Ancestresses and Ancestors and include those direct blood relations who are Akan and also those ancient direct blood relations who are Kenesu-Kamau (Nubian-Egyptian).

Some Kenesu-Kamau travelled west of Keneset and Kamit thousands of years ago, eventually settling in the regions of today's Ghana, Ivory Coast, Nigeria, Cameroon, etc. They are known as the Akan, Yoruba, Ewe, Igbo, Fang, etc. Some however never left the East and allowed their descendants to migrate. They therefore never experienced life in West Afuraka/Afuraitkait (Africa), the foods, clothes, songs, dances, etc. that developed there. They are part of a class of Nananom Nsamanfo that are evoked differently than Those Who migrated west.

This is the case for many Afurakani/Afuraitkaitnit ethnic groups. Many Akan, Yoruba, Ewe, etc. evoke their recent Nananom Nsamanfo in their present West Afurakani/Afuraitkaitnit language and cultural way, and evoke the more distant Nananom Nsamanfo in a different way, rooted in that culture's ancient dialect and cultural approach. There are many similarities, yet slight differences in evocations, offerings, libations, songs, etc.

Ma asomdwoee-Hetep (Peace)...

They used to have a domain name registered but it seems to have fallen by the wayside, although there is "current" information from them this year at <http://www.webspawner.com/users/itibari/> <http://www.webspawner.com/users/itibari/index.html> <http://www.webspawner.com/users/itibari/amenratheologic.html> This is mostly cali folx doing an online correspondance seminary/religious studies type of masters and doctoral program. Peep some of the past and current faculty such as Molefi Asante. I was looking for Richard King on there but didn't see him :/ Itibari Zulu is one of the founders and the current provost for the Seminary.

Wow, I didn't know that this group garnered this much H.A.T.E. from "somebody". Didn't seem like the Afrikania Mission didn't have that much presence or members to begin with to garner SO MUCH H.A.T.E.

Apparently the HATE is related to allegations that the Afrikania Mission endorses or even practices trikosi, a form of "indentured servitude" (read as SLAVERY) for you girls whose parents have made some type of pact with the religious society they are a member of.  
Will investigate further.

What do y'all think of the M'TAM Earth Center / Master Naba folx?  
<http://www.theearthcenter.com>

The things that really stand out to me about them are

- 1) Their use of geomancy and relating it to the 4 elements Nw/Nu (instead of Rh/Ra?) Shw (Shu) Tfnwt (Tefnut), Gb (Geb) as he has "divined" from "reading the planet". He says it is a stronger influence than "astrology" because people are closest to the actual planet Earth and it has it's own subtle energies (I don't believe in astrology or geomancy, just interesting that he is interpreting it that way)
- 2) HEAVY FOCUS on using the Sideral 10 day week calendar instead of the Gregorian 7 day calendar. (That would be interesting to impliment for a month or so as a retreat).
- 3) Reecessitating Rh N Km (Spoken Language) through what he calcs Mdw Myyt (Medu Myeet) which is basically the trace elements of Mdw Ntr / Mdw Nfr / Rh N Km in modern languages such as Wolof and Dogon phrasings that have preserved some of the classical Rh N Km and Mdw Ntr.
- 4) Khyt Hb / Khyt Ybyt meditation or Ka'at Ibi / Khait Ab meditation (I suppose in contrast to Rh Hku / Ra Ahku meditation supposedly developed by Sty / Seti I of the 19th dynasty, championed by Dr. Muata Ashby/ Seba Maa, the Egyptian Yoga guy)

Peace.

Dang I totally missed that news from last month 😞 . I talked to one his HM-T NTR / Priestess and she said his Philosophy Podium (Volume 1) :The Philosophy of Kemetic Initiation <http://www.theearthcenter.com/index.php?title=products/books/philosophypodium1>

is still on schedule to be published next month or so.

The particulars about Master Naba physical expiration are below

<http://www.theearthcenter.com/index.php?title=contactmasternaba>

Master Naba Lamoussa Morodenibig's Journey Into The Imentet  
On Monday the 15th of Hebsenseni in the year 407 (July 21st 2008) Dogon Kemetic High Priest and founder of The Earth Center, Master Naba Lamoussa Morodenibig began his journey into the Imentet (world of the dead) due to an extremely rare health condition. This event took place in Tamert (Africa), where he was living and teaching. Master Naba was laid to rest in true Kemetic fashion in his bush village of Tambega, which is located near the small city of Fada N' Gourma, in Burkina Faso, West Africa.

The Earth Center would like to thank everyone for their kind words of support and encouragement during this time of remembrance. Master Naba left a wealth of knowledge that will continue to be carried on and passed down for many generations to come by all of his students in Maanu (America) and Tamert (Africa).

for real, man that would be cool as hell, but of course, you know.....

they are continuing the legacy of their immediate forefathers, of appropriating black people's culture and putting they eurocentric spin on it by trying to revive the "Egyptian Religion" instead of the Hpy River Valley Academy of Science and Civilization.

I mean look at one of the oldest white groups that has set up the Hpy River Valley education system as a "religion". The "Church of the Eternal Source" <http://home.earthlink.net/~ceswebhq/> from 1970 These white square niggas said Lubicz "invented the term neter" (look at their "FAQ"). Shrine of Ptah with Heru Semahj and dem, knew that "neter" was no "modern invention" and they came out at the same time, and knew the language better and more extensively than their caucasian c onterparts.

There primary defining tome/literature is the

The Egyptian Mystery School of On (Annu): Esoteric Atannuology, Egyptology and Rastafariology, by 'Aakhun' George Singleton

which outlines the presences of a Black "Rastafarian" Culture in Pre-Dynastic and Dynastic HPY/Nile valley culture. They are using the word "RS THW" which is the Portal or Gate by which individuals gain entrance into the DWHT (Duat) which religious people interpret as "underworld" but in reality and practicality really means subconscious. But yeah, they are saying they are THOSE type of "Rastafarians"

The book is advertised all over the site, as a data cd for 20 dollars,

FELLAS, check out one of there High Priestesses, and erotic model, "virgin" and vegan, NANCY "NEFERTIABIT" MENSAH OF ACCRA GHANA

I'm shocked that there is people in this that live in, of all places, NAPTOWN!!! (Indianapolis).

Sons of Ra Ministries  
w/ Heru Jehuti Bey Sa-Ra

"Nile Valley Origins of Christianity" kind of group.  
I wonder if they do "fellowship" with Ray Hagins and dem of "Ma'at" African Village.  
They also have a Sacred Order for their Ministry that looks like  
it's model after rites outlined in Stolen Legacy by George M. James.  
Mainstream literature from senior members of the book is called "Origins of the Word Amen"  
by Drs. Jahi Issa and Salim Faraji.  
They are based in LA

The Kemetic Benu Order (KBO) fraternity was created and organized January 27, 1987 at NC State University. It is the first formally founded African fraternity in America and it uses non-Greek African letters. It is a Secret Society that is very selective and highly competitive. Its members refer to themselves as warriors. All warriors undergo African Rites of Passages, Institution, wear African names, and respect positive African culture, languages, sexual, and religious practices. The Kemetic Benu Order Visions has a seven pronged action plan to carry out its Africentric mission: Internationalism; Economics; Education; Technology; Culture; Religion and Actions by any means necessary.

Peace. I'm going to do some what do an itemized review on each group from the "Revival of Nile Valley Culture in the Black Community" post. Some I have already done reviews for. This a review of the "oldest" one which is

Ancient Egyptian Arabic Nobles of the Mystic Shrine PHA (founded 1893)  
<http://www.aeaonms.org>

Soooooo, I have a grandfather and grandmother on my Physical Foundation's (Father's) side who was in the freemasonic fraternity and eastern star "co-ed fraternity" respectively. Now they wasn't PHA (Prince Hall Affiliated) although they was black, but they had friends that was PHA. In addition, the had friends that was in the appellate / auxiliary organization AEANOMS and Daughters of "Isis". What I noticed about, not necessarily them, but some of their friends, is their LIBRARIES that had all types of "Signs and Symbols of Primordial Man" and "Isis Unveiled"

and "Egyptian Book of the Dead" type jointz in they library. I only even noticed WHAT those books was AFTER I started adding on to Allah's Nation, so when I go back and visit some of those peoples, I would be like "look at y'all, y'all been had 'some' knowledge and y'all couldn't even drop some Knowledge on a young brother?" :-P So yeah, that was my observation. Peace.

Next I want to take a look at Thmei Research with Sun Ra and El Saturn Record Company or El Saturn Research. Basically, since the late 50's, Sun Ra, members of his band, and other patrons, engaged in a sort of "philosophical collective" in Chicago, with regular meetings or public lectures/demos outside just the jazz band performances, and even at some of the performances, where they passed out flyers and bits of literature related to some investigations into Black Classical Civilization such as in the HPY / Nile River Valley.

I recently acquired:

The Wisdom of Sun Ra compiled by John Corbett

They found a stash of Sun Ra's "plus lessons" in Chicago. The beginning of the book is actually the photocopies, and the second half is the words from the photocopies retyped. My next project is to acquire "The Immeasurable Equation" a collection of Sun Ra's prose from his albums and other sources. ( read here for reviews <http://www.the-temple.net/astroblack/immeasurable.html> or book preview at google books at <http://books.google.com/books?id=ffvurF89-EC> )I'm going to do some Sun Ra research when I'm up back at the CRADLE (South Bend, Indiana) this July, because I'll be able to get up to Chicago then.

some excerpts:

page 112

"MANY INSERTIONS HAVE BEEN PUT IN THE BIBLE BY MEN WHO TAMPERED WITH THE ORIGINAL BOOKS, THESE MEN WERE NOT WHITE. THEY WERE ASIATIC PREISTS WHO HAD SUBJUGATED THE KEEPERS OF THE ORIGINAL WISDOM BOOKS. THE KEEPERS OF THE WISDOM BOOKS WERE EGYPTIANS. FROM EGYPT CAME WISDOM THAT ENLIGHTENED THE WORLD.

THE ANCIENT EGYPTIANS WERE CONSIDERED AS BEING OF THE RACE OF HAM. THE UNITED STATES REPRESENTS THE ANCIENT EGYPTIAN RACE OF HAM, AND SINCE IT DOES, YOU MAY AS WELL CALL IT GREATER EGYPT. YOU CAN PLAINLY SEE THAT IT HAS CONNECTION WITH HAM, IN THE FIRST PLACE, IT IS CALLED

UNCLE "SAM WHICH RIMES WITH HAM, AND WHICH IS HAM BECAUSE OF THE ARRANGEMENT OF THE ALPHABETS. A IS Z. B IS Y, C IS X, D IS W, E IS V, F IS U, G IS T, H IS S; THEREFORE HAM IS SAM. THE UNITED STATES IS EGYPT. PROOF OF IT IS THE EAGLE, WHICH IS ALSO THE SYMBOL OF EGYPT IN AFRICA. THERE IS A KINSHIP BETWEEN AFRICA AND AMERICA. THERE IS GOING TO BE A SPIRITUAL WAR BETWEEN THE UNITED STATES AND THOSE WHO SAY THEY ARE RIGHTEOUS. THE UNITED STATES IS GOING TO WIN THROUGH THE TRUTH. THE TRUTH IS THE GREATEST WEAPON THAT ANYONE CAN USE AND THE UNITED STATES IS GOING TO USE IT, BECAUSE OF THIS FACT THE WHOLE WORLD WILL BOW TO THE SPIRITUAL TRUTHS EMANATING FROM THE SHORES OF AMERICA."

page 137

"The So-Called American Negro are the descendents of the Ancient EGYPTIANS, ETHIOPIANS, CHALDEANS, INDIANS, HEBREWS (JEWS): they are the MOTHERFATHER of civilization and are known among the "HOOP" as the GODS WHO REFUSE TO CREATE."

What most are going to find controversial are the Egypt/India connection that Sun Ra promotes and which DIRECTION he says one goes into the other

page 81

"Two places hold the keys to the identity of the American negro: EGYPT and INDIA. The first ETHIOPIA was in INDIA. India was a civilization before EGYPT. What we call civilization started in Asia. Asia is in the East therefore we call the Ethiopians of India "EASTERN ETHIOPIANS:' The EASTERN ETHIOPIANS migrated to the vicinity of EGYPT..they are the true founders of Egypt, they are known as "the mighty builders." They were considered as the wisest of men, and were called "THE BLAMELESS

ETHIOPS."----ETHIOPS are ETHIOPIANS!! ETHIOPS are originally from India. At that time the territory of India was greater than it is now ..."

I know some of the "Egyptian"/"Kemetic"/TH MRY/HPY Yoga advocates are going to have trouble with this ascertain, while some of the advocates will not, in addition to some of the Chaldea "Sumeria" claims. Whatever the case, Sun Ra was investigating this stuff long before the Ancient Egyptian Order / Nuwaubians of York and other similar Egyptology/Extraterrestrial advocacy groups in the black community, where promoting this kind of "history", and flip flopping between which was "earliest" (Egypt, Sumeria, or India), or reiterating older groups such as the Moorish Science Temple of America that insisted on a "Canaan" origin for Asiatic "Moor". Chicago had the climate of the Oriental Institute of the University of Chicago, the Muslims of the Nation of Islam under Elijah Muhammad, and the remnants of the Moorish Science Temple of America under their remaining temples and appellate organizations, or "street liberation organizations" such as the Black Stones and El Rukns, in addition to any Fahamme Temple people that may have been left in Chicago.

Egypt, Sumeria, Arabia, or India? hmmm I have a personal bias toward the ARABIA origin based on the people of the HPY River Valley themselves calling Punt or the "Horn of Africa" and Arabia by the name ThWY NTRW (Tawi Neteru), DISTINCT from TH NTR (TH NTR) of the Great Lakes and Mount Killimanjaro, also the abundance of petrochemicals in "Arabia" indicating a mass concentration of biomass in antiquity, in addition to, the actual sizable percentage of Black People in Arabia of various hair textures, and there affinity in appearance to people in India (Dalits) and Eastern "Africa" and along the Nile, etc.

Then, for your "Egypt"/India fix, there is of course, the movie "10, 000 BC" (barfastic 😞)

Some movies and documentaries for you guys to check out, on google video, are Sun Ra's famous "Space is the Place" 1974. WARNING RATED R FOR NUDITY AND LANGUAGE

He sounded high as hell, but i loved his attitude and could fa sho feel where he was coming from.

We can fly thru alot of the misperceptions and historical inaccuracies he was spittin', but you are right, he was definitely looking deeper than most and tappin' into some other frequencys.

Peace

To add on, in the book "Pathways to Unknown Worlds: Sun Ra, El Saturn & Chicago's Afro-Futurist Underground, 1954-68", there is not only artwork from vinyl records that was sold, as well as insert poetry, there is FLYERS and BUSINESS CARDS for El Saturn Research, Promoters such as the "Atonites", and an ACTUAL FLYER for THMEI RESEARCH which shows a vision that looks like the PR NTR / PR RH (Temple) in the city of YWNW (Annu/On) other wise known as "Heliopolis temple of Luxor". Then there are two figures in the bottom corners with rays coming out of they brain/pineal and forming geometrical proof diagrams for triangles and squares and stuff. I'll get a scan of it later. This book also verifies that Thmei Research had been around since 1951, with main founders Sun Ra and Alton Abraham, who was also involved with the philosophical research

as well as the business side for El Saturn Records. The above mentioned book might be at "a fine Barnes and Noble or Borders bookstore near you" \*snicker\*, for you to preview. I'm going to contact Atlon Abraham's son, Adams Abraham, to see if he has any more material on the actual Thmei Research segment of the operations. You can get books such as some of the prose of Sun Ra from Adam Abrahams at <http://www.phaelos.com> . Peace.

Space Is The Place and Brother From Another Planet are good. I havent seen Joyful Noise yet.

You ever read that Sun Ra bio "The Lives and Times Of Sun Ra"? That is a good book.

In that book they mention another book called.....

"God wills the Negro : an anthropological and geographical restoration of the lost history of the American Negro people : being in part a theological interpretation of Egyptian and Ethiopian backgrounds".

by Theodore P Ford.

Now that books seems interesting too.

This one guy who claimed to have it some years back be he was trying to charge way too much for it.

I'll still look or it tho.

I just googled the title and a few results showed up. Its supposed to be at the Chicago library. Im just shooting it out there but if you see that in a Chicago library and can copy it I got something on it. Peace.

I just previewed that book yesterday at the library, and soaked up almost all of chapter two which goes further into Thmei Research, called in the book Ihnfinity Inc. and the reprisals of them going out to Washington Park in Chicago and teaching. I had also had access to "Children of the Sun" by George Wells Parker, which may even beat out Fahamme Temple in terms of explicit reference to a HPY society via the Hamitic Leauge of the World, the organinzation Parker was involved with. Check interlibrary loan for "God wills the Negro". I saw it several places on worldcat. If it's on worldcat at several libraries, the probability is high you can check it out through interlibrary loan. Peace.

This a black group trying to orientate the black church community into accepting Alpha Khen Omega, otherwise known as Akhen Aten, as "Chirst", an Atenism based form of "christianity"  
 Check the site and see, and if you are down, they are sending out free books to people if you send them your physical address, or the physical address of your church synagogue mosque temple etc.

So it looks like Asar Ra Hapi is the first person in the US to originate the term "Egyptian Yoga" or "Kemetic Yoga", outside of plain Indian yogis just saying it was just "yoga". However, Yirser Ra Hotep is the main VISIBLE instructor and advocate for the system now. That means BEFORE Sebai Maa / Muata Ashby and dem, who used to be affiliated with Ausar Auset and dem. This is since the early 70's. Most of the Asar Ra Hapi / Yirser Ra Hotep style is Hatha-like. There is also an essay out there from Yirser where he acknowledges that the Ari Ka method from Heru Semahj of Shrine of Ptah is a kind of yoga, but Baba Heru Semahj doesn't want to use the terminology "yoga" so.....

Peace. Well, I got a chance to listen in on the teleconference today organized by PAKKMNOS (Pan Afrakan Kash Kmt Mdw Ntchr Outreach Society). An impressive ensemble including Mfundishi Djhwtyms of Kera Heru Djehuti Neb Hu, Dr./Sunnut-Rkhty Amen, Dr. Phil and Nalani Valentine of University of Kemetian Science, Heri Khafra of White and Gold Lotus Shrine of Amen Ra, and others, convened through teleconference and live meeting, to commemorate the resetting of WP RNPT (Wep Renpet) or the HPY / Nile Valley New Year, from early August / late July when most european pagan ancient egyptian advocates celebrate it, to the actual Summer Solstice, June 21, and all Summer Solstices to follow. The rationale, according to Sister Rkhty Amen is that although the helical rising for the star SPDT/Sirius or PR-T SPDT (Pert Sepdet) begins around August in the Gregorian Calendar, that was not necessarily ALWAYS THE SAME as the actual New Year, and factoring in differences from the Gregorian calendar to the more accurate Sidereal Calendar rendering, she and the Society calculates that WP RNPT has always been originally the Summer Solstice, and that Sirius just happened to be at the beginning of it's helical rising on that day or near the same day, in antiquity. This is also taking into account the near 25,000 year or approximately 25,900 year cycle of the precession of the Earth's axis. The importance of this day is associated with the beginning of peak flooding of the HPY/Nile river and the conclusion of harvest. So today (06.21.2008) various shrines and societies celebrated with song, spoken word, remembrance of ancestors, acknowledging the Primaries/NTRW, and scholarly discourse, over a near two hour teleconference. Details for listening to a recording of the conference will come soon. Very Educational teleconference. Peace.

Peace. I am going to list the modern groups domestic and international that are at the forefronts of this revival, and then people add on about there positive, negative, or otherwise experience with each group.

Here is my current list of secular, academic, and "religious" groups and organizations advocating Nile Valley culture, both domestic and international. If you feel I have left one out, add on.

Peace.

Metu Neter has been on my father's shelf for as long as I can remember. He's been teaching me this and many other things that I'm trying to relearn all my life.

I just had him send me his copy. Now I understand it after studying Kabbalah and Magick along with Islam and Christianity on a historical level.

I feel like, remember on X-Men when Charles was in Cerebro and saw the lights of all the mutants around the world. A new light just came on. Or better yet, I just realized I was one of those lights.

Some of these people are even against "orgasms" (asceticism). That's foreign to me but I understand where they are coming from in terms of people that are OVERSEXUALIZED and OVERSTIMULATED. The only group out of this list that I have actively participated in, because it's not a religious group, it's a scholarly group, is ASCAC (Association for the Study of Classical "African/Afrikan" (BLACK DAMNIT) Civilizations).

The thing I can say, although I don't agree with the homosexual stuff, is that it's mostly a black centered presentation of the culture. That's why I am including it in the list. He comes of more "a man impersonating a woman / effeminate" than genuinely "homosexual", if you watch some of his videos, and he can probably get away with doing that based on traditional hygenic culture of Hem Netcher and Hemet Netcher Priests and Priestesses of the Hefi / Nile valley involving shaving and depilatory practices for the men AND women.

You have to be very carefull mixing techniques, meditations and exercises from different traditions.

It is best to choose one authentic tradition and to submit to that choice.

Realizing God, Allah, etc. is about submission.

English is not my language so it is difficult for me to explain but if you gather all this information from all these different sources and you pick and choose what you like and don't like.....it's a service to your ego.

It is better to choose one path (any path)and to submit to that path 100%.....even if it is the wrong path your submission to that path will eventually show you the right path because submission is a declaration of war to your ego (lower self).

I'm sorry. I could not watch the video (I didn't mean to respond to the video). I was at work and after reading some of the information you posted I posted a response.

No disrespect! But to me it seems that these "organizations" practice a little bit of everything (Qi Gong, Egyptology, Krishnaism, Kabbalism, Astrology, Pantheism, Hinduism, Yoga, Buddhism etc.) and they put it in a "(pan)-african" context which can be attractive for black people because we can claim it and identify ourselves with it more easily.

But a little bit of everything is actually alot of nothing in my opinion.

All of these spiritual practices are good because they come from a authentic source. When you choose one of these spiritual practices you realize your higher-self because you submit to one of these spiritual practices (meditation, breathing, fasting, praying etc.) and through submission you tame your lower-self.

But what happens when you mix all these spiritual practices up? That is very dangerous because you will go "spirituality shopping" (consumerism in spirituality). You take a little from this, a little from that. Everything you agree with (or your ego agrees with)you collect and you stop practicing everything you don't agree with (or your ego doesn't agree with). And that is not spirituality. That is service to the ego.

If you submit to one specific spiritual practice or tradition you will tame your ego and polish the mirror of your heart by submission and even when you submit to a false religion or inauthentic form of spirituality your heart will show you the right path.

But you can't choose the right path without polishing your heart through submission first.

This is just my opinion and I am not a scholar or expert and I'm not trying to insult anybody.

I'm going to watch the video right now.

Yes. All these "systems" originated in Africa, just like humans originated in Africa. It was one "system". When humans started to relocate to different places they adjusted the "system" to the context of their new locations and situations. That's the only difference between all these "systems".

All of that shit is just a bastardization of the original sacred knowledge of the Eloheem.

Ask yourself why is the great pyramid still standing?

See when man rebelled against god he then sought to reinterpret this knowledge. Everywhere in the ancient world they tried to recreate this with god-kings, mystery schools, they even tried to recreate the great pyramid. There are crumbling pyramid structures all over this world. Why? because man could not do it.

Everyone should know by now the great pyramid of giza was created by the gods themselves and was standing before the flood.

All these new age groups gonna fail. The only one on earth now with any real occult knowledge are the serpent bloodlines( illuminati) and they shit eventually gonna fail as well.

Oh so everyone who believe in goods must be nuwaubian?  
Grow up.

All ancient texts and myths all over the worls confirms the existence of supernatural beings.  
grow up.

When the breathing,Yoga (stretching your ass like a rubber band), sacred baths, chanting, meditations etc. fail to lift you into the next dimension you gonna be ready to deal with the reality you in now.

All of it is a sham.

just wanted to add-on that i dealt with the Center for the Revival of Maat last week for an African Centered Tour of the King Tutankhamun Exhibit in NYC. It was the last day of the exhibit and the last time it would be shown outside of

Egypt. The tour was very informative and they conducted themselves very professionally. it seems that the organization is ran by a couple, Bro. Jabari Osaze and Sis. Anika Daniels-Osaze. They had dvd's for sale at the end of the tour and they also do annual African Centered trips to visit Kemet on a yearly basis if im not mistaken. They also have a weekly tv show which is broadcasted outta nyc and can b seen online

for more info check out their site:

and their youtube channel

what do you get when u cross stonehenge and a pyramid??  
pizza

what do you get when you combine a pizza and a house? a teepee what do you get when you turn over a new stone? stonehenge, small worms that attract large birds, similar to the prometheus myth but actually those worms are part of the ecosystem, it doesnt hurt the planet or the worms really to be eaten, at least we hope not, and it helps the birds, they would try to gather all these rocks together to make fires, thus creating stonehenge, but they actually didnt need to gather the rocks, but turn over the stone of fires without gathering rocks, which is actually the stone of the buddha, there were fires, but no rocks were gathered, the sun could not be contained, and the earth reattained starhood.

no one can own the land...

no one can own the music..

no own can own the culture!!
