## "READERS"

I have got to admit that we have the best darn readers in the world!! And the thing is ... I know exactly how your little minds work!! I had absolute faith that at least one person would have the obsolete tires that I was looking for and sure enough within 24 hours of the Sussex Herald hitting the street I had my tires all lined up and within another 24 hours they were resting in my backyard. Thank you Lloyd!!!!

Now one of the problems going out into the rural areas to meet with readers is how humble you soon become!! My wife has always professed amazement (along with some alarm) at the number of "toys" that I have. So I have been pretty cocky about how well equipped I was for just about anything. An hour's visit with my new friend Lloyd, however, changed my whole self image. Sitting on the porch, the first thing I noticed is that he has four tractors while I only have two. Once we got off the porch and into some of his buildings, things went downhill rapidly. If I had three of something Lloyd had five or even more. Whether it was welding helmets, grinders, pipe wrenches or just about anything else ... I was totally out gunned!!!!

I feel fortunate in one way that the missus wasn't there to see my downfall but on the other hand she would have seen first hand what a real collector should have. A few days later, the missus did go with me as I once again ventured out into our rural heartland. This trip was to pick up a snow blower for my tractor. Going up the driveway at our destination I wondered if I was entering a working farm or a tractor dealership. Once again we met some fine folks who are also part of our loyal readership and once again I got out gunned in the toy department.

So I appeal once more to the kindness and generosity of our great readership. Just in time for Christmas please send Mikie any toys that you may wish to donate. Two tractors (with loaders), welding helmets, grinders, etcetera (in working condition) would all be appreciated. I don't know if I even have enough room for the number of toys need to rebuild my self-esteem but I can always use the den and the dining room in a pinch!!! 800

## ARL FUNDRAISER A SUCCESS

The All-You-Can-Eat Spaghetti Dinner fundraiser in support of the Saint John Animal Rescue League has raised \$6,147.44. The event was organized by the Woolley family in memory of their daughter, Laura Cristine Woolley, a devoted animal lover who passed away in 2007.

The event was held at the Lansdowne Place Pizza Delight on October 3<sup>rd</sup> and the funds raised will be used for food, supplies and the day-to-day operation of the shelter. We would like to thank all the volunteers, sponsors and the staff at the Lansdowne Place Pizza Delight for making this a hugely successful event. 632

**IN FLANDERS FIELDS**

*JOHN MCCRAE*

In Flanders fields the poppies blow  
Between the crosses, row on row  
That mark our place; and in the sky  
The larks, still bravely singing, fly  
Scarce heard amid the guns below.

We are the Dead. Short days ago  
We lived, felt dawn, saw sunset glow,  
Loved and were loved, and now we lie  
In Flanders fields.

Take up our quarrel with the foe:  
To you from failing hands we throw  
The torch; be yours to hold it high.

If ye break faith with us who die  
We shall not sleep, though poppies grow  
In Flanders fields.

## "FIGHT LIKE A GIRL" FUNDRAISER

Lexus of Saint John recently held a "Fight Like A Girl Fund Raising Auction" in support of the Canadian Cancer Society. The Lexus showroom was tastefully decorated in pink and the evening featured great food, drinks and numerous auction items that were kindly donated by various local businesses. Over \$4000.00 was raised and this money will provide local breast cancer patients with wigs, turbans and temporary prosthesis. 622

## Meet Nigel!!!

Nigel is a large 1 1/2 year old male tabby with medium length hair. He has 'personality plus', is very friendly, both with people and felines. All in all, a very 'laid back' cat, playful and very gentle.

The Sanctuary received a phone call about a stray that looked to be in pretty bad shape. Since he was found in Sussex proper, we suggested the Town Animal Control Officer be called to pick him up as we were more than full. When we phoned to check up on his situation, the cat was nowhere to be found. Two days later we received another phone call from someone else about the same cat and suggested the same thing, however, these people refused to feed him or give him water to keep him around until the Animal Control Officer came. It being a weekend, we couldn't bear to see him suffer any longer, so, we picked him up ourselves and are glad we did as he definitely was in bad shape. He was just skin and bones, full of parasites and had an upper respiratory problem. It took a full month, with proper care and lots of loving, for him to gain enough weight in order to be able to neuter and vaccinate him.

He is now fully recovered and in excellent health. Nigel is looking for a loving permanent home. If interested in meeting him please call for an appointment.

# FUNDAMENTAL BAPTIST CHURCH

## KNOW • GROW • SHARE

Fundamental Baptist Church has grown a lot since its founding in 1962, and this November it will take its biggest step yet.

This next month the independent Baptist church on Saint John's west side will leave its home of 34 years and move into a new building at 1170 Sand Cove Road.

It'll be a big change. Space was getting tight at the church's old home on the corner of Danells and Bleury streets, and seniors were finding the building's stairways a challenge. Senior pastor Herb Hunter says that was one big improvement in the new building's design.

"It's all one level, which is an exciting feature, given the number of stairs used to enter this current facility," he says.

The new building's 18,000 square feet of floor space will come in handy for the church's ministries, especially for the church's popular Friday night Kids 4 Truth ministry, which combines Bible teaching with a lot of noisy games.

"The activity space in the fellowship hall will help for sure, because it's quite cramped right now and it gets quite loud," says Hunter. "It should enable us to grow to fit the space, whereas now we couldn't really grow beyond the space we had."

Besides the fellowship hall, the church's foyer has grown, giving churchgoers more space to chat after service; the main auditorium is larger, enabling the church to host more visitors to regular services as well as programs such as its annual Christmas cantata; Sunday school rooms are larger and the kitchen is much larger, enabling the church to host more dinner functions - in recent years the church has had to move some of its annual banquets off-site due to space constraints.

Beside the increase in space, there's another exciting new feature with the new

building - it's environmentally friendly. The church will be heated by a geothermal system and low-wattage bulbs were used where possible. Many interior lights are on motion-sensor switches, to ensure they aren't left on, wasting energy.

Pastor Hunter says that while the church has only been working on plans for the new building in earnest since about 2006, the idea has been in the background since the mid-1990's. The contractor's bid on the new facility was just under \$2.5 million, and construction started last fall.

"Amazingly enough, after a year's worth of building and everything that's gone on, we should be within 10 per cent of what we budgeted to do it," Hunter says. He adds that he's not worried about the building's high price tag.

"People in the church have really stepped up and there's been a lot of giving going on, so we should be able to meet our financial obligations," he says. "I just try to take the perspective that we entered into this project believing that it was something God wanted us to do."

While all the church's members are eagerly watching the new building's progress, one member in particular has a unique perspective.

Victor Burrill helped found the Fundamental Baptist Church in 1962, while he was pastoring churches in Dipper Harbour, Chance Harbour, and Lepreau. He helped the original members with their first meetings in homes, although his workload left him unable to pastor the church full-time. He recommended the church's first pastor, Douglas Fraser to them, and credits the church's growth over the years to sound Bible teaching that was started by Fraser and carried on by other pastors like Paul Fosmark.

But back in 1962, when he helped found the fledgling work in what was then known as Lancaster, Burrill had no idea just how much the church would grow.

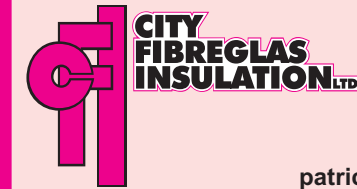

"I never dreamed we were going to be in a facility like we are now," he says.

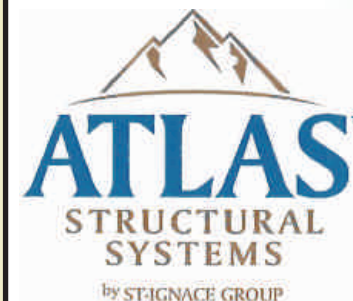

L-R: Assistant Andrew Henderson,  
Senior Pastor Herb Hunter  
and Assistant John Banks

## WESTSIDE CO-OPERATIVE DAYCARE

Have you ever wondered what your children do in daycare? Are you curious about the government's movement to have every daycare and preschool an early learning centre with qualified instructors delivering a child centred curriculum? Do you think that you are alone in dealing with your child's growing pains? At the West Side Cooperative Preschool on Dexter Drive, parents get a first hand glimpse into the daily "work" of a preschooler. Our ECE trained teachers are constantly upgrading their qualifications by attending workshops which give them more tools in their bags of multiple tricks to get our children to be the best they can be for big kid school. As you watch other children grow and develop alongside your own, you realize that every parent has a child with growing pains. At the preschool, staff and parents aim to shine the star in each child and give her the opportunity to learn different coping strategies, let him find his inner musician, allow her to develop her vocabulary through dramatic play, locate the daredevil and gymnast within in the school's full sized gym, fine tune his fine motor skills through various craft and play activities. Our teachers aim for the success of each child in her care. With the help of parent cooperation, children grow to trust the adults in the classroom to help them cope with their everyday struggles and successes.

Be a part of your child's education and join us at the West Side Cooperative Preschool. There are immediate openings in our 4 year old classes which are **Monday, Wednesday and Friday**. Please call Denise Marino at 693-1096 and visit our website [westsidecoopreschool.ca](http://westsidecoopreschool.ca) for more information. 721

### LEAH MACGOWAN MEMORIAL CURL

Leah MacGowan was a very respected woman as a teacher, story teller and as a wonderful woman. I had named a curling funspiel in her honour 16 years ago. We were lucky to have both her and her husband at the very first event. This event is still going strong. Last year we raised over \$7,000. The event is to raise money and awareness for Multiple Sclerosis which Mrs. MacGowan was afflicted with.

The event will be held on **Saturday, November 20<sup>th</sup>** at the Hampton Curling Club. There is no registration fee but each curler must obtain pledges. Online fundraising is also available. Lunch is provided free of charge; there are prizes and a whole lot of fun. No experience is necessary for this event. You may register a team or you can register as an individual, we will place you on a team. You can also become a "ghost" fundraiser, where you obtain pledges in the name of another curler.

If you are unable to join us for the day, then perhaps you would like to make a donation in Mrs. MacGowan's memory. Please contact me to pick up your donation. For more information on what the MS Society does I suggest you go the mssociety.ca website to get more information including any updates on the new studies.

For more information, to register, to obtain a pledge sheet or to make a donation please contact Tanya Henderson at 832-3236 or mhender@nbnet.nb.ca. 840

### SUPPER IN UPHAM

There will be a Ham, Beans & Potato Scallop supper at the Upham Wi-Seniors' Hall on **Thursday, November 11<sup>th</sup>** from 4:30-6:30pm. The menu includes a variety of desserts and the cost for the meal is \$8/adults, \$4/children, pre-schoolers eat for free or \$20/family.

Proceeds from the supper are for Hall maintenance. 851

### Reminder: JOIN PROJECT FEEDERWATCH

Help scientists look for changes in backyard birds - backyard birdwatchers across Canada are invited to take part in the 24<sup>th</sup> season of Project FeederWatch, from **Saturday, November 13<sup>th</sup>, 2010** through **Friday, April 8<sup>th</sup>, 2011**. Participants will join thousands of volunteers counting birds in their own backyards throughout North America.

Each checklist submitted by 'FeederWatchers' helps scientists at Bird Studies Canada ([www.birdscanada.org](http://www.birdscanada.org)) and the Cornell Lab of Ornithology ([www.birds.cornell.edu](http://www.birds.cornell.edu)) learn more about where birds are, how they are doing, and how to protect them. Participating in Project FeederWatch is a great way for families and friends to connect with nature, have fun, and help birds. You do not have to be an expert to participate - we'll send you a poster of common birds, and help is just a phone call (or email) away.

Participants choose how much time they want to spend. They are asked to select their own two-day count period once every two weeks, and then count for as little as 15 minutes (or as long as they wish) on one or both of those days. Sightings are entered online at [www.birdscanada.org/volunteer/pfw](http://www.birdscanada.org/volunteer/pfw) or reported on paper data forms.

For more information about Project FeederWatch, please visit our website at [www.birdscanada.org/volunteer/pfw](http://www.birdscanada.org/volunteer/pfw) or contact the coordinator at 1-888-448-2473 or [pfw@birdscanada.org](mailto:pfw@birdscanada.org). 834

At The

Animal Rescue League

We speak for those who cannot speak for themselves.

*Here is one of the pets up for adoption  
at the Animal Rescue League:*

Yes, it is me - Chloe – and I am back at the shelter, hoping to find my forever home this time. I have called the shelter home a few times over the past several months, so I need someone who will be dedicated to me and my needs, and give me a forever home! One of the reasons I have returned to the shelter is that I am a very energetic dog and I require a lot of exercise. I have some nice people working with me on my training, and I am doing quite well. I am very friendly, but I might be too exuberant for smaller children.

#### WHAT IS THE MANDATE OF THE ANIMAL RESCUE LEAGUE?

The Animal Rescue League is a non-profit organization that provides rescue, temporary housing, care and assistance to abandoned and unwanted animals in our community. We receive no government funding and rely on donations and fund raising in order to continue our work as animal advocates. We do our best to find loving, caring and responsible forever homes for all the animals in our care. We also attempt to educate our community about responsible pet ownership, the humane treatment of animals, and the importance of spaying/neutering your pets.

## NEWS & VIEWS

I recently had the chance to begin work with a great group of enthusiastic young people at an elementary school in the Valley. They want to start a school newspaper. This week we had our initial meeting to start the organization and structure and they have set the beginning of December for their first issue. As we sat around the table, the ideas came none stop for story ideas, opinion polls, people they might want to interview, humour and information to share with their fellow students. There was consideration of how the newspaper could perhaps raise money for a cause. The commitment is to meet once a week, but many of the students asked to meet a second day (remember this is on their own time), others asked if they can work on it on the weekends. The room was filled with energy and enthusiasm. And with respect. Respect for each other and each other's ideas. These students are tomorrow's leaders, and if we don't mess them up between now and adulthood we will be in good hands.

One of my very first Musings was regarding teenagers. My daughters were young teens at the time, and I mused on how much I enjoyed their friends. And for much the same reasons. The energy, the enthusiasm, the promise for the future. We get bogged down and "stuck" as we age. Stuck in our ways, stuck in our thought processes, stuck in our acceptance of the ways things are even if we aren't really happy with that. Taking part in an activity with young people offers us the opportunity to get "unstuck". To remember that opportunities are all around us, we just need to change our perspective and make a choice to pursue them.

"Most people spend more time and energy going around problems than in trying to solve them." ~ Henry Ford. 801

# THANK YOU

Thanks, ladies of Whitehead/Carter's Point.  
I had a major accident on October 14<sup>th</sup>  
in the area near Carter's Point Road  
on Route 845.

Lois MacFarland, Sandy and two other ladies  
were excellent in providing care and comfort.

*Thanks ladies - you were great.

## PRAYERS

PRAYER TO THE BLESSED VIRGIN (never known to fail). O Most Beautiful Flower of Mount Carmel. Fruitful Vine, Splendour of Heaven, Blessed Mother of the Son of God, Immaculate Virgin assist me in my Necessity. O Star of the Sea, help me and show me you are my mother. O Holy Mary Mother of God, Queen of Heaven and Earth, I humbly beseech you from the bottom of my heart to secure my necessity (make request). There are none who can withstand your power. O Mary conceived without sin, pray for us who have recourse to thee (3 times), O Mary, I place this cause in your hands (3 times). Say this prayer for 3 consecutive days, then publish it & it will be granted. E.D.
