Perfection by Oz Pearlman Revealed (Free Download)

watch trailer >>>http://www.youtube.com/watch?v=2raFr_JGflQ

“Perfection is aptly named. For the cleanest, most direct and most downright impossible ESP card matching routine you will ever see, Perfection is my only choice.” - James Cheung, creator of Cerebro and Midas

[Perfection by Oz Pearlman Revealed \(Free Download\)](#)

The Effect
Imagine this: you shuffle a regular deck of cards (no gaffs!) and your spectator takes about half.

She shuffles her half, and you shuffle yours. You both start to deal cards face-up. She deals a red 5, you deal a red 5. Could this be a coincidence? She deals a black king, you deal a black king... she deals, you deal, and every single one of her cards matches yours, in perfect order. EACH AND EVERY CARD. ALL THE WAY THROUGH THE DECK.

Perfection is one of those rare routines where spectators handle the cards and are in total control. They don't just witness the impossible, they experience it.

In performance, Perfection has a similar feel to Paul Curry's legendary "Out of this World" - the audience gets to make all the decisions, and as each card is dealt the effect becomes more and more unexplainable. The difference with Perfection is that the dealing sequence IS the climax so you get to the reaction sooner and build from there. Modern audiences are fully engaged and react with spontaneous laughter and applause.

- * Instant reset and instantly repeatable!
- * Tons of audience participation!
- * Learn one of the easiest and most convincing false shuffles in existence! This shuffle is easy to do, very versatile and truly gives the illusion of a deck being shuffled.
- * Uses a regular deck of cards-no gimmicks!

As a SPECIAL BONUS, Oz teaches you how to perform Perfection with ESP cards. The ESP Match Up routine allows you to demonstrate your mind reading abilities. It can be done impromptu-at a moment's notice-by writing ESP symbols on the back of business cards. This is mentalism that can be done anywhere, anytime!

My Review

I have seen many card effects, but nothing has impressed me more than this effect here, Perfection, it truly is a perfected routine. Everything has a reason to it, and the routine flows together and makes sense.

Teaching : Great teaching

Quality : Awesome quality

Live performances : The performances are my favorite part in the DVD because you can see and understand what the effect should look like in real time.

Overall I would recommend this to just about anybody, it is that good.

Thank you thank you Oz.

Modern Mentalism by Matt Mello (2 DVD Set) Revealed (free download)

Modern Mentalism by Matt Mello (2 DVD Set) Revealed (free download)

vol 1 <http://www.youtube.com/watch?v=ETUQN5ukXPp>

vol 2 http://www.youtube.com/watch?v=8_zdE2GhwyM

“Matt has a knack for creating tricks that are easy to setup, easy to do, and that pack a huge UNEXPECTED punch. This is a great collection of casual miracles that you will be thankful you have in your brain next time you’re out.” -Alvo Stockman

Modern Mentalism is a collection of 14 effects from the mind of Matt Mello, spanning 2

volumes. It is one of the few DVDs on the market that appeals specifically to the entertainer that performs mentalism close up. Another unique feature of Modern Mentalism is the absence of sleight-of-hand methods and awkward props. Instead, Modern Mentalism uses clever principles, interesting plots and extremely simple methods to create a collection of close up mentalism worthy of both casual and professional performers.

Volume 1

:: Serial :: An on-the-spot serial number reading, requiring nothing more than a borrowed dollar from your spectator.

:: Coffee Melt :: Imagine if you could touch a straw and make it melt and bend at your command, being able to control everything from speed to how far it will continue to bend. Well, with Coffee Melt, you’ll be able to do just that, and you’ll be able to do it seconds after learning it!

:: Photographic :: If you could really memorize a long string of code in seconds, it would probably look something like this.

:: Lottery :: This is Matt’s version of the add-a-number routine, using the lottery as it’s theme. It uses no switch pads or gimmicks, and as a bonus, Matt also teaches a way to do this effect with absolutely nothing on you but a pen and paper.

:: Stop :: A demonstration of suggestion and influence during a simple game with cards.

:: Handy Prediction :: A spectator is asked to hold their hand up, and then drop any amount of fingers. A card the performer is holding predicts the spectators actions.

:: Any Card at Any Number :: Forget about complicated math and card counting and all of that, and get ready for one of the simplest solutions to the “Card At Any Number Plot”. With only a deck of cards and a prediction, you’ll be able to perform one of the easiest, most baffling effects imaginable on your spectators.

Volume 2

:: PS I Love You :: An impromptu and powerful demonstration of the connection and bond between people, using an ordinary deck of cards.

:: GI Joe :: A method for revealing multiple pieces of information, using an object that you can pick up nearly anywhere.

:: Billet Tear :: With this simple tearing sequence, you’ll be able to reveal almost any piece of information that the spectator can think of.

:: Instinct :: This is a simple Russian roulette routine which has been used and tested by Matt for many years. The method is genius, and once you learn it, you’ll be able to perform this miracle with a variety of presentations. Also included is a bonus idea not offered on the original Instinct video, something which gives the effect a nice extra punch at the end. Warning: Do not perform this effect if you are under the age of 18. Anyone who performs this takes full responsibility for their actions.

:: Preservation :: A multiple phased pk effect in which you're hands, wrists, and even the objects/environment can be completely examined beforehand.

:: Point and Predict :: After the spectator shuffles the pack of cards and spreads it across the table, they are asked to touch one, their choice completely free. The card box is then opened, showing a prediction that's been in play since the beginning. It predicts their chosen card.

:: Dark Arts :: A drawing duplication of the simplest design. The spectator makes a drawing, which is concealed in an envelope and held in their own hands. The performer then makes a drawing that perfectly matches the spectators.

Testimonials

Just stumbled upon a 2-DVD set which, as far as I know, has flown under the radar- "Modern Mentalism", by Matt Mello and Papercrane. I have no idea how long this has been out, but there's some wonderful close-up stuff, here.

The routine, "Serial", is perhaps the most devious serial no. divination I've come across (and my favorite routine on the DVD)- you divine the number of the spectator's actual bill- with no sw*tch involved. Very direct and hard-hitting. I couldn't wait to run out and perform this. It kills. "Melt", A terrific PK bend of a commonly found item.

"Stop", a strong routine of subliminal influence which involves a small amount of risk, but that's what it's all about, ain't it, fellas?

"Handy Prediction", a two-phase effect based on Al Baker's "The Finger Knows And Tells" – everything on the DVD that's a variation (in many cases, an improvement) on a theme is well-credited.

A brilliant version of ACAAN, that's virtually sleight-free and can be done with a borrowed, shuffled deck.

A practical, elegant, easy-to-learn billet tear.

"Point and Predict", another strong prediction effect.

"Dark Arts", a wonderful close-up drawing dupe.

Anyway, there are many more effects on this DVD set, each one a real-world worker. All of them require minimal set-up, are basically sleight-free, and are very well explained. Can't believe there wasn't more buzz about this. Highly recommended.

PRESSURE by Daniel Garcia and Dan White Revealed

Monday, July 12, 2010 17:38

Effect

A borrowed cell phone is held in one hand – and a balloon is inflated. The cell phone visually penetrates inside of the balloon. It is shown, then given back to the spectator with the cell phone still inside.

The result is a twisted hybrid of visual craziness: the borrowed cell phone is **INSIDE** of the balloon. The spectator removes it herself. There are no crazy gimmicks. Any cell phone. Any balloon. Nothing but magic.

PRESSURE is an effect conceived by Daniel Garcia with additional insight and assistance from David Blaine magic producer Dan White at the HQ in NYC in preparation for his Dive of Death television special.

All objects can be borrowed and signed; both the balloon and the cell phone. We wouldn't recommend signing anyone's phone – but it's nice having that option. No cell phone? Use an iPod.

NOTE: You are not limited to a cell phone. Any small object can be used – from a deck to a wallet to a soda can.

Review

Like they say, it is an incredibly simple trick and requires no sleight of hand. It's very visual and magical but.... It doesn't work with everybody.

I performed this trick around a 100 times in the last few weeks and 50 % knew instantly how it was done.

This had nothing to do with a bad technique because there is no technique.

The spectators that don't know how this works are baffled by the effect and think they witnessed a miracle.

The other spectators almost always reacted "yeah, I know how this works, that's really simple, but...cute trick though"

And that made me feel like a 5 year old child that just performed his horrible dance act he learned at school.

Overall

it's a good effect but be carefull for whom you perform this trick because your spectators are smarter then they seem.

I don't do the trick anymore on itself, meaning I use it a utility prop in other routines. e.g. I'm performing a mentalisme effects with cards. I let the spectator pick a card, I put all the cards back in the pack. Blow up a balloon, do pressure (only the first part of the trick). Then I can say there is know way for me te look at the cards and then proceed to guess which card they chose.

Ultracinese by Leonardo Milanesi

[v=6abA_GZa_Rw](http://www.youtube.com/watch?v=6abA_GZa_Rw)

Ultracinese may be one of THE most amazing PK effects ever. Imagine you pick up a nut and bolt (both may be borrowed), thread the nut on the bolt, and upon your command the nut slowly starts threading itself off of the bolt as if caused by some ghostly action. You can reverse directions upon your command and the nut can wind back up on the bolt. You immediately give the nut and bolt (no switching) to the spectator to keep as a souvenir. Now get this... no thread, no magnets, no reels, no rubberbands, nothing attached to the nut or bolt, nothing hidden in your hand, no switching, no kidding. Sounds too good to be true, sounds impossible, sounds like hype? It is not... it is Ultracinese effect created by Leonardo Milanesi with the support of the Netmagicas company. Ultracinese is one of those rare effects where the method will not

disappoint but will inspire you and make you feel like you are doing REAL magic. You will do this for your own amusement and amazement.

There are many other uses only limited by your imagination. Imagine having one card slowly crawl along in sympathy to another card you openly push along, imagine a deck of cards creeping out of its case to be immediately examined...

Ultracinese is as close to real magic as it gets.

Includes the hand made gimmick that works on a simple AA battery (not included), thorough written instructions, and a bonus DVD giving handling details.

watch trailer >>><http://www.youtube.com/watch?v=Z2gykNVvTJY>

The DVD teaches TWO complete methods, one of which requiring NO gimmicks of any kind. Perform it with a borrowed bottle. A Pepsi bottle. A water bottle. Any bottle.

Hold the bottle in your hands. Put the bottle in your spectator's hands. Put the bottle on the table. The choice is yours. It CRUSHES.

The DVD was shot on location in New York City. Both methods are tried, true, and work in REAL environments. Don't want to carry around a gimmick? You DON'T have to.

CRUSH is suitable for close-up, parlor, or stage performance, and via a combination of methods, is workable for just about ANY environment. Own one of the hottest releases of 2010.

Panic by Aaron Fisher Revealed

watch trailer >>><http://www.youtube.com/watch?v=fIQi2Es1EqI>

Panic has become Aaron Fisher's favorite effect, and for good reason. Never before released until now, Panic has the power to leave your audiences stunned, and leave their jaws on the floor hours after you've left their presence. This is the trick people talk about. This is the trick that will make you a legend.

Aaron Fisher (creator and performer of over 15 years and theory11 Artist) will walk you through the trick step-by-step, in detail and with unparalleled instruction. Filmed on the streets of Las

Vegas, you'll be able to see just how effective Panic is in front of real-world street audiences; complete strangers. Every question you have will be answered:

The Effect

They came. They saw. They vanished.

The four Kings are shown and placed into your back pocket. The rest of the deck is spread cleanly, and then it happens.

The deck instantly vanishes in your hands — leaving only four cards. The cards are shown to be the Kings. And where's the rest of the pack? In your back pocket. No sleights. No funny moves.

Panic has become Aaron Fisher's favorite effect, and for good reason. Never before released until now, Panic has the power to leave your audiences stunned, and leave their jaws on the floor hours after you've left their presence. This is the trick people talk about. This is the trick that will make you a legend.

Aaron Fisher (creator and performer of over 15 years and theory11 Artist) will walk you through the trick step-by-step, in detail and with unparalleled instruction. Filmed on the streets of Las Vegas, you'll be able to see just how effective Panic is in front of real-world street audiences; complete strangers. Every question you have will be answered.

Shot in high definition and mastered to DVD, with top notch production by the theory11 team. This is the reputation maker you've been looking for.

Running Time Approximately: 43mins

Symphony by Daniel Garcia Revealed

Posted in category [Daniel Garcia](#)

watch trailer >>><http://www.youtube.com/watch?v=zvUvQ-mVXGQ>

From The Mind & Manuscripts of Daniel Garcia

SYMPHONY contains five simple, powerful effects that are as visual as magic gets. Each is completely impromptu – no crazy gimmicks are required – and can be performed at a moment's notice.

Containing full instruction on VOID, VISA, JACOB'S LADDER, .44, and TIMELINE 2.0. Shot on location in Las Vegas, Nevada, with multiple street performances. Each effect was hand selected by Daniel for practicality, simplicity, and visual nature.

SYMPHONY contains tricks involving everything from rubberbands to credit cards to bills to playing cards – over 1.5 hours of detailed instruction by the man himself. Click [HERE](#) for the full contents listing.

What You Get

VOID

For the first time, Daniel outlines the full version of VOID – one phase of which was previously published in Magic Magazine – an impromptu method for performing the classic MISLED effect by Timothy Wenk (as performed by David Copperfield).

An ordinary drinking straw penetrates and melts visually through a dollar bill in a three phase routine that will leave your audience speechless.

VISA

Visual. Instant. Static. Attraction. You cause the magnetic strip on two borrowed credit cards to polarize themselves, being drawn together and repelled apart as if a magnetic field was present. Three phases of staticy goodness.

TIMELINE 2.0

Daniel's take on the classic Mystery Card plot. A card with an odd back is removed from your pocket as the 'prediction'. You have the spectator sign it across the back and it is placed securely into the card box – which is then held by the spectator.

You spread another deck and have a card selected. You ask the spectator if it matches the prediction in the case – but they find it has vanished. You tell them to turn over the card in their hand and it is the original signed prediction. A piece that Daniel performs on a daily basis. Super simple. Incredibly powerful.

A visual transposition of two packets of four cards (as chosen by spectators). An effect that can be performed spur of the moment. Four Aces held by a spectator transpose with the Jacks in your hand... twice. Each move is taught in unparalleled detail.

JACOB'S LADDER

An effect inspired by Dan Harlan's 'Traveling Cash' routine. A rubberband is stretched around the fingers of a spectator. A bill is folded over the top strand of the band.

With a subtle flick it penetrates directly through, leaving it wrapped around the second strand. Another pull and it penetrates directly through. All can be examined.

13 Steps to Mentalism by Corinda Revealed Free Download

The Effect of 13 Steps to Mentalism by Corinda (Revealed & free download)

watch trailer >>><http://www.youtube.com/watch?v=aUGeCgauRZg>

Today, known throughout the world, Corinda has been acclaimed as inventor, writer, and teacher of Mentalism — the art of mind-reading. While on tour in America, his friends persuaded him to write a book and with the support of nearly every professional Mentalist in the world, **Corinda set out to compile The Thirteen Steps to Mentalism.**

After two years the series was published step by step. Without the advice of friends and invaluable assistance of the Puslisher, Harry Clarke, the task would have been impossible. However, Corinda succeeded in producing what has now become the most classic encyclopedia of mental magic. For this, he has received many honours — including recognition from The Magic Circle who awarded him membership to the Inner Circle with Gold Star — a coveted award.

You will learn:

- * The Swami Gimmick
- * Pencil, lip, sound, muscle reading
- * Mnemonics & Mental Systems
- * Predictions
- * Blindfolds & X-Rays
- * Billets
- * Book Tests & Supplement
- * Two Person Telepathy

- * Mediumistic Stunts
- * Card Tricks

* Question & Answer Effects

* Publicity Stunts

* Patter & Presentation

My Review

If you're at all interested in mentalism, you really need this. It provides the foundation for 90% of what you're doing. It's not as if you'll be getting a series of hot routines out of this... it's more about the thinking and psychology that goes into the effects you're performing.

Yes, much of this might seem dated now, because so many mentalists have taken the ideas and principles in this book and improved them, modernized them, and made them their own... but it should still be part of your education to see where it all started.

I would also recommend Osterlind's excellent DVD series based on this book. It does a great job of bringing the material to life; however, don't make the mistake of thinking the DVDs are an adequate substitute. It'd be impossible to distill this entire book into a set of DVDs. You really do still need the book.

I found this book to be very long winded. A lot of complicated material in here, but also very good material. I can't really say this is the beginner's book to mentalism. When I got it I was a beginner and found a lot of it very hard to do. There is a ton of really nice information in here but it's not all the most practical. And comparing to today's modern mentalism acts, it doesn't really compare because of the variety. We are doing more direct effects now that it's only worth the read in my opinion. Maybe you can branch off to other things, but it's up to you.

Laced Download by Dan Hauss

Make the impossible, possible with Laced

Dan Hauss, creator of Flow &, Sleeping Queen, hits the scene with another groovy twist.

Get this... Everyone digs a magician finding their card in spectacular ways. What about a card that visually impales itself on a tied shoelace? What if that SAME card matched the torn corner held by the spectator?

Full Overview

Laced is an extremely simple and powerful effect that anyone can do. It's 2009 and Laces are in. If you wear shoes, then you have your tools. Go perform Laced and melt some faces.

- * Detailed teaching of multiple performance methods
- * Acclaimed instructor Dan Hauss
- * Spectators freely choose their own cards – corner is torn and saved
- * Corner matches the 'Laced' card
- * Quick and easy setup

V2F – Impromptu Visual Vanish 2.0 by G

V2F - Impromptu Visual Vanish 2.0 free download

<http://www.youtube.com/watch?v=2tNiolU9hrc>

G., a creative thinker from the East who has recently finished his lecture tour in Taiwan, has decided to share his creative mind with a series of amazingly practical effects to the Western world in the next bit! And this, is just a start...

Imagine you are caught up to perform something in unexpected situation, and your friend hand you a beat up deck from a bar... Simply have a spectator sign a card, you visually vanish the card, and make the card reappear in your OR EVEN SPECTATOR'S WALLET!!

Visually vanish a signed card and make the card reappear in your OR EVEN SPECTATOR'S WALLET!!

-Highlight-

1. Use borrowed deck
2. No Gimmick/Impromptu
3. Perform Surrounded
4. It's a card to any wallet effect without expensive wallet!

Basic Routine includes...
Card to any wallet

Card to spectator's shoe

Professional Presentation straight from G.'s work

Illusionary Prank – Magic is all about perception. After the audience witnesses a very visual illusion (signed card to wallet routine), it was just an illusion after all. Nothing ever happened from the beginning...

Time Travel – G.'s take on the classic ambitious card routine that he perform on a daily basis.

Highlights:

- * Use borrowed deck
- * No Gimmick/Impromptu
- * Perform Surrounded
- * It's a card to any wallet effect without expensive wallet!

It's hard to find visual and practical magic that you can do with borrowed objects... so what are you waiting for?

"It's visual, it's strong, it's practical, and it's an gaff effect without gaff. What more can you ask for?"

- Will Tsai

Testimonials

"G" is a MYSTERIOUS magician.

The man comes OUT OF NOWHERE, has a one-letter name and just released a SHOCKINGLY VISUAL new method for doing special-effect-like card changes with an ORDINARY DECK.

V2F is a deliciously slow, VISUAL card transformation that NOT ONLY allows you to MELT any card into thin-air, but from there it springboards, letting you do even MORE impossible magic — like having the vanished card end up IN YOUR SHOE.

This one will take a little practice, but WELL worth it if you ever need to perform a miracle at a moment's notice. (Did I mention V2F can be done with ANY deck of cards?)

It's nearly impossible to find great, VISUAL card magic you can do IMPROMPTU with no gimmicks, and this is what makes V2F all the more exciting. When I first learned the method for V2F I couldn't help doing it over, and over AND OVER again.

One of the things I love most about my job at Penguin Magic is seeing how differently people from all corners of the world make magic. And in a very strange way, G approaches the entire physics of card magic from a new angle. One that makes a lot of sense in the year 2010. You'll see what I mean..

Enjoy,

Acar Altinsel
born to perform.
